Location: Ha Dong, Ha Noi

SUMMARY

- I'm a third year student of Le Hong Phong High school for the Gifted, Informatics Major, Nam Dinh city.
- I studied programming at Funix university and by myself most of the time.
- I strive to be an excellent software engineer.
- With an entrepreneurial mind, I want to run my own start-up.

PROJECT

E-commerce websites:

- Github: <https://github.com/TranKhoi164/ecommerce1.0-mernStack>
- Docker: <https://hub.docker.com/repository/docker/trankhoi/ecommerce-mern/general>
- This website allows admin to create and manage pages, categories, products, product's attributes,... Customer can filter, add products to cart, purchase products prior to rating and commenting.
- Technologies:
 - ReactJs, redux, material-ui
 - NodeJs, typescript, express, mongoDB, jsonwebtoken
 - Caching with Redis cache, web cache, node-cron

Chat websites:

- Github: <https://github.com/TranKhoi164/chatapp-sernstack>
- Docker: <https://hub.docker.com/repository/docker/trankhoi/chatapp-sernstack/general>
- This website allows user to communicate with others in real time.
- Technologies:
 - ReactJs, material-ui
 - NodeJs, MySql with sequelize, Socket.io
 - Redis pub/sub, Nginx as api-gateway

TECHNICAL SKILLS

- Html, css, javascript, typescript
- ReactJs, material-ui, bootstrap, GSAP
- NodeJs (expressJs), Redis, Nginx, socket.io
- SQL, noSQL
- Docker, Git

OTHERS

- I can do research, collect information and read documents in English.
- Bronze medal in a provincial Informatics competition (Algorithms category).
